

Stainless Aluminum

Infinite Innovation – Infinite Benefits

Infinite Benefits

Natural, Long Lasting Beauty

Anodizing allows the natural beauty of the aluminum surface to shine through. Create durable, custom stainless alternative products by combining aluminum and anodizing finishes with clear or stainless-grey color.

Tough Performance – Low Maintenance

The durable low-maintenance anodized surface resists scratches, is dent resistant, will never corrode, flake and peel and cleans up easily with soap and water.

Reduced Weight – Enhanced Profitability

Not only do anodized aluminum products weigh approximately 60% less than stainless steel, they can improve your production efficiencies through reduced down time with larger coil sizes, ready to use material and faster fabrication in many processes.

Environmentally Responsible

Our Stainless Aluminum products are 100% recyclable – making them a smart, environmentally responsible material decision.

Infinite Possibilities

Appliance panels & Trim
Architectural Hardware
Ceiling Panels & Trim
Column Covers
Commercial and Residential Furniture
Composite Panels and Trim Components
Cornices
Electronic Faceplates
Elevator Panels & Trim
Exterior Architectural Panels
Foodservice Equipment
Mailboxes
Signage
Small Electronics
Window Spacerbar

Stainless Aluminum

Infinite Innovation – Infinite Benefits

Infinite Savings

Stainless Gage	Aluminum Gage	Stainless Steel			Anodized Aluminum			Savings
		\$/lb	lb/sf	(A) \$/sf	\$/lb	lb/sf	(B) \$/sf	\$/sf
26 GA	0.0200"		0.84			0.28		
24 GA	0.0240"		1.00			0.34		
22 GA	0.0320"		1.34			0.45		
20 GA	0.0360"		1.50			0.51		
19 GA	0.0400"		1.67			0.56		
18 GA	0.0480"		2.00			0.68		

To Calculate Your Potential Savings:

- Enter your price per pound for both stainless steel and anodized aluminum into the appropriate \$/lb field.
- Multiple the price per pound (\$/lb) by the pounds per square foot (lb/sf) to get the price per square feet. (\$/sf).
- Subtract (B) from (A) to view your savings.
